

**THE MICROSCOPE
TRAINING CENTER**
BANGALORE

BROKEN INSTRUMENT RETRIEVAL AND RETREATMENT

(Two-Day hands-on course)

Duration of the course: 2 days | Time: 10am – 6pm | Location: Bangalore

The two day course will train the participants to handle instrument separations in practice using simple and effective techniques in a systematic way.

All participants will have an independent work station with a fully loaded inclinable 5-step microscope, with a LED light source, beam splitter and extender, dual iris diaphragm, variable focal length objective and full HD video output. Each work station will have its own airtor, micromotor, coedless endodontic handpiece, ultrasonic unit, stropko irrigator, high-vaccum suction, downpack and back-fill devices. All instruments and consumables will be provided by the center.

Course will be limited existing microscope users and 5 participants per batch to facilitate interaction.

INSTRUCTOR:

Dr. Reuben Joseph

FEES: RS. 39,000/- (INCLUDES COURSE MATERIAL, REFRESHMENTS AND LUNCH)
